Outline

PBL & Vision – University Life is meant to equip students with basic college survival skills required to be successful and productive students. The course will cover a variety of topics including active reading and learning, researching and note taking, time management, examination and study skills, interpersonal relations, conflict resolution, responsible drinking, and employment preparation.

Class Rules

We will not meet every week—sometimes we will meet in my office (525), one class will be held in the library, and many assignments can be done at home. No books are necessary for the course.

All discussion in class, where possible, will be in English. While it's understood that for most of you English is a second language, it is essential that you participate in class, and in English, in order to improve your spoken skills and to increase your thinking complexity and response time.
