Summary

PBL & Vision – University Life Skills is meant to equip students with basic college survival skills required to be successful and productive students. The course will cover a variety of topics including active reading and learning, researching and note taking, time management, examination and study skills, interpersonal relations, conflict resolution, responsible drinking, and employment preparation.

Class Rules

We will not meet every week. Sometimes we will meet in my office (525), one class will be held in the library, and many assignments can be done at home. No books are necessary for the course—all materials are online.

Every year I have taught at Hanyang this course has had the highest failure rate, because students do not respect the course. It is not a difficult class, but please do respect the activities and tasks.

Evaluation

Attendance and participation 25% Blog posts 30% Final exam 30% Hanyang videos 15%

Weekly Plan

1	Wed Mar 18	Introduction	Online
2	Wed Mar 25	Managing University Life video 1 + Blog post	Online
